

# SPARK Exchanges

(Formerly APEX Groups)

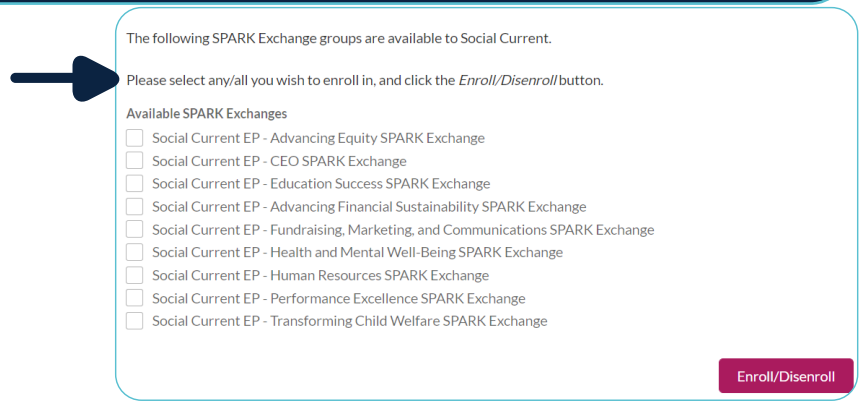

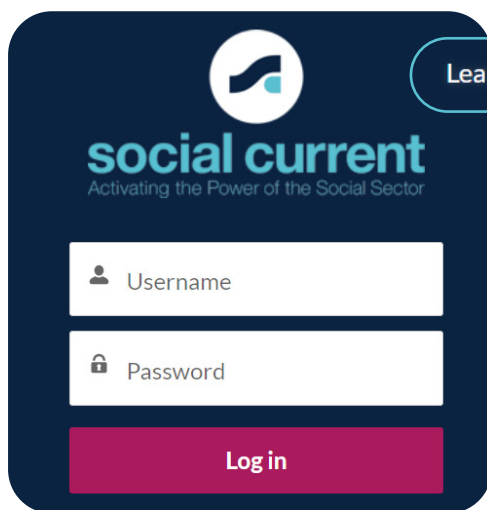

**SPARK Exchanges** unite social sector professionals around functional roles and key issue areas to collaborate, share, and/or access resources and solutions, discuss emerging trends, and receive policy updates and action opportunities.

Facilitated by staff at Social Current and led by a core team of group members, SPARK Exchanges provide specialized advice from peers throughout the country, as well as rich, timely content delivered through conference calls, webinars, discussion boards, and in-person and virtual networking events.

SPARK Exchanges are offered as a key benefit of Social Current's engagement package. All staff at organizations that have enterprise-level engagement packages may join any of the SPARK Exchanges.

## How to Select Your Groups

Join the group discussions by clicking [Launch SPARK Exchanges >](#) in the Hub.
