United States House of Representatives
Washington, DC 20515

The Honorable Chuck Schumer
Majority Leader
United States Senate
Washington, DC 20510

The Honorable Hakeem Jeffries
Democratic Leader
United States House of Representatives
Washington, DC 20515

The Honorable Mitch McConnell
Republican Leader
United States Senate
Washington, DC 20510

RE: Support for the *Streamlining Federal Grants Act* (S. 2286/H.R. 5934)

Dear Speaker Johnson, Leader Jeffries, Leader Schumer, and Leader McConnell,

On behalf of charitable nonprofit organizations nationwide, we write to you today to express our strong support for the *Streamlining Federal Grants Act* (S. 2286/H.R. 5934). As leaders of organizations that serve diverse communities across the country, we believe this legislation holds excellent potential for streamlining federal grant administration, reducing administrative burdens, and ensuring equitable access to vital resources.

A lack of coordination, complexity, and redundancy plague the federal grant system. Over 1,900 grant programs managed by 51 agencies result in inefficiencies and confusion for applicants, compounded by non-standardized funding opportunities. Despite a substantial increase in federal grant funding, reaching \$1.13 trillion by 2022, the urgency for reform is evident. Successful implementation of significant legislation, such as the Infrastructure Investment and Jobs Act, relies on efficient resource allocation, highlighting the pivotal role of the *Streamlining Federal Grants Act* in addressing these challenges.

The *Streamlining Federal Grants Act* addresses critical issues in managing federal grant programs, and we urge your support and leadership in advancing this legislation. We recognize the importance of federal grants in supporting the work of nonprofit organizations and the vital services we provide to communities. This legislation presents an opportunity to improve the effectiveness and accessibility of these grant programs.

The Act focuses on several fundamental principles that align with our mission and values:

- **Coordination and Standardization:** The Act acknowledges the need for better coordination and standardization in federal grant administration. The lack of uniform rules and forms across federal agencies creates unnecessary complexity and inefficiency.
- **Streamlined Grant Application Processes:** The Act aims to simplify the grant application process, reducing redundant requirements and paperwork and making it easier for nonprofit organizations and communities to access federal grants.
- **Improving Transparency:** Standardizing Notices of Funding Opportunities and implementing common data standards enhances transparency and ensures potential grant applicants can quickly identify and apply for relevant opportunities.
- **Equitable Access:** The Act specifically addresses the need to provide underserved communities and organizations with greater access to federal grants. This focus on equity aligns with our

commitment to serving all members of our society, regardless of their size, location, or resources.

- Support for Workforce Development: The Act recognizes the importance of a well-trained workforce and the need for agencies to provide training and assistance to potential grant applicants. This support is crucial for the success of nonprofits and communities alike.

We believe that by supporting the *Streamlining Federal Grants Act*, you can make a lasting impact on the nonprofit sector and the communities we serve. This legislation presents a pathway to greater efficiency, equity, and effectiveness in federal grant administration.

As representatives of charitable nonprofit organizations nationwide, we stand ready to provide any additional information or assistance you may require as you consider this important legislation. We are eager to work with you and other congressional leaders to ensure that this Act becomes law and that its principles benefit our communities.

Thank you for your continued dedication to improving the lives of all Americans through public policy. We look forward to your support of the *Streamlining Federal Grants Act* and the positive changes it can bring to federal grant administration.

Sincerely,

NATIONAL NONPROFITS
